As luminárias da Stilo Clean vão além da estética, integrando design, funcionalidade e tecnologia.

O principal objetivo é se destacar no mercado de iluminação decorativa, por isso, está sempre atenta às novidades e tendências do mercado.

A empresa é sediada em Jaraguá do Sul, Santa Catarina, e conta com parque fabril moderno, com mais de 12.000 m², equipamentos de alta tecnologia e profissionais especializados. Por isso, garantimos ao cliente agilidade no atendimento e peças de excelente acabamento.

The STILO CLEAN decorative lighting products are fancy, integrating unique design, convenience and latest technology. The main goal is to be a reference for this market segment. With that in mind we are always looking for new trends according to the customers needs at the speed the market demands.

Located in South Brazil at Santa Catarina State, our company counts on a state-of-the-art manufacturing plant with over 12.000 m² / 129,000 ft² under roof and a high tech production process allowing prompt service and flexibility. Besides that, we have very skilled designers in-house focused in innovation, resulting in world class products, discreet fixing and easy installation.

Stilo Clean

Equipe de Desenvolvimento (Research Development)

Inovação e design impecável. Foi esse o legado deixado pelas coleções anteriores da Stilo Clean. Para esta última não poderia ser diferente, o desafio seria ainda maior.

Inicialmente investimos em pesquisa de tendência no Brasil e no exterior, desde o setor de iluminação europeu bem como design, moda e arquitetura dos principais polos formadores de tendências pelo mundo. Em conjunto fizemos uma releitura dos processos de fabricação, investimentos em novas tecnologias

de ponta e novas formas de uso da matéria-prima. Os primeiros desenhos desta coleção surgiram por consequência dessa imersão.

Por ser uma empresa 100% brasileira, temos total controle sobre os processos em nossa fábrica. Consequentemente sabemos que ao projetar bem, o impacto social é positivo. São as diretrizes da Stilo Clean, priorizar pelo respeito à mão de obra e na baixa geração de resíduos que são por fim reciclados. Quando um projeto é aprovado,

um longo caminho se inicia no setor de engenharia e qualidade. Muitos protótipos e longos testes são realizados por uma equipe altamente treinada, nada menos do que uma luminária impecável poderá ser lançada. Além da estética, a qualidade, durabilidade e eficiência luminosa são arduamente testadas até serem aprovadas.

Por fim, contamos com um sistema produtivo em escala com a mais alta tecnologia do setor e com profissionais altamente capacitados.

Innovation and unique design. That is the legacy coming from the previous product lines and was not different with this new lighting product lines. In fact, many challenges we face.

Starting with high investments, looking for global lighting trends and fancy design around the world and also restructuring the production process and new technologies incorporated. The projects design are results of this synergy.

Being a vertical integrated company allow us to have total control of the production process beyond quality. Consequently, we have in mind that

doing world class projects we will have positive socio-environmental impact. That the guidelines of Stilo Clean as well as valorizing the work force and always producing with minimal waste and scrap that will be recycled. In addition, after the project approved by Engineering team a long way begins at Quality dept. Several prototypes and a lot of tests are made after all only state-of-the-art lighting products will be launched considering quality, beauty, lifetime and luminous efficiency.

Besides that, we also counts on latest production process system as well as very skilled professionals.
